A WORD ABOUT THE UNIVERSITY

This year Sir George Williams University celebrates two anniversaries. It is 100 years since the Montreal YMCA began to offer the educational courses that served as the forerunner to the present University. It is 25 years since Sir George Williams College received its charter; the name was officially changed to Sir George Williams University eleven years later. And, since we are recording anniversaries, let us add that the name of Sir George Williams College was first used in 1926, and the first formal graduation ceremony was held in 1937.

Today, Sir George Williams University has 6,000 full-time students in the Day Division; 8,000 part-time students in the Evening Division; 1,000 graduate students; and 2,500 other people attending courses. There are four Faculties: Arts; Science; Commerce and Administration; and Engineering. Besides our undergraduate programs, we offer 20 programs at the Master's level and six at the Doctoral level.

This has been an outstanding record of growth and development. And Sir George Williams has held to the principles that have guided it since the earliest days: above all to provide the opportunity for a good university education to all those with the desire and ability to benefit from it. We have founded our plans and programs on the revealed needs of the Montreal community.

Sir George Williams will soon be part of a larger unity, established through the joining together of Sir George Williams and Loyola; their names will be preserved in the two campuses and in three of the five Faculties. The spirit of service which has inspired Sir George Williams will be maintained and reinforced. Our task ahead is to measure up to this opportunity to create a great new University worthy of two fine and well-loved institutions.
